

The image features a stylized illustration of a Filamentoviridae virus particle on the left, which is a long, thin, red filament. A grey rectangular label with the text "Filamentoviridae" is positioned over the middle of this filament. To the right of the label is a detailed illustration of a black wasp with orange-brown legs and wings. The wasp is shown in profile, facing right, and is depositing a yellow, segmented egg into a dark, circular nest. The nest contains several other eggs, some of which are light blue and some are light grey.

Filamentoviridae
